DEFINITIONS

Malnutrition refers to both under nutrition and over nutrition.

Under nutrition – is a condition in which there is inadequate consumption, poor absorption or excessive loss of nutrients.

Over nutrition: is a condition in which there is overindulgence or excessive intake of specific nutrients.

**MIZORAM COLLEGE OF NURSING
FALKAWN, MIZORAM**

FALKAWN, MIZORAM**

COURSE OUTCOME

The course outcome of the undergraduate nursing program is to:

Prepare graduates to assume responsibilities as professional, competent nurses and midwives in providing promotive, preventive, curative and rehabilitative services.

Prepare nurses who can make independent decisions in nursing situations, protect the rights of and facilitate individuals and groups in pursuit of health, function in the hospital, community nursing services, and conduct research studies in the areas of nursing practice. They are also expected to assume the role of teacher, supervisor, and manager in a clinical/public health setting.

**MIZORAM COLLEGE OF NURSING
FALKAWN, MIZORAM
FOURTH YEAR B.Sc (N)**

Programme - Specific Outcomes

1. Midwifery and Obstetrical Nursing: to help the students to appreciate the concepts and principles of midwifery and obstetrical nursing. It helps them to acquire knowledge and skills in rendering nursing care to normal and high risk pregnant women during antenatal, natal and post natal periods in hospitals and community settings. It also helps to develop skills in managing normal and high risk neonates and participate in family welfare programme.
2. Community Health Nursing - II: To practice community health nursing for the individual, family and groups at both urban and rural settings by using concept and principles of health and community health nursing.
3. Nursing Research and Statistics: To enable the students to develop an understanding of basic concepts of research, research process and statistics. It is further, structured to conduct/participate in need based research studies in various settings and utilized the research findings to provide quality nursing care. The hours for practical will be utilized for conducting individual/group research project.
4. Management of Nursing services and Education: To acquire understanding of management of clinical and community health nursing services, nursing educational programmes. This is also designed to enable students to acquire understanding of the professional responsibilities, prospects and contribution to the growth of the profession.
