

PARENTS TEACHER MEET 2021-2022.

Meeting between the teachers and parents / guardians of students are usually held after terminal examinations.

But due to the covid pandemic, for the session 2021 - 2022 Parents - Teacher Meet could not be held. However, repeated contacts were made with the parents via the whatsapp group (which is created separately for each batch) and telephonic conversation as and when needed.

The academic performances of the students, disciplinary actions and academic welfare etc. of the students are continually shared with the parents / guardians.

The institution / teachers are open to sharing of information regarding students' welfare to improve their academic as well as their personal and professional development (over-all development).
