5. AOB

The meeting started with prayer from meeting chairman Mrs Laldusaki, Vice Principal.

Agenda 1: Review of Odd and Even semesters 2023-24

The meeting chairman invited each class co-ordinator for review and the reports are as follows-

- 1) Ms Zulvelin Vanlalrosangi Reia, co-ordinator of 1st & 2nd Sem reported that during 1st Sem, despite half the faculty on Maternity Leave, syllabus was covered on time and secured 100% pass percentage in MZU Examination. For 2nd Sem, Final MZU Examination is due from 1st July, 2024.
All theory syllabus is covered except for Biochemistry (2 classes left) and Nutrition practical class which is planned to be taken up on the 3rd week of June. All guest lecturers were reported to be co-operative and diligent. She also expressed gratitude to all 2nd Sem Faculties for their co-operation and support.
- 2) Mrs Lalramengi Kaipeng, Class co-ordinator of 3rd & 4th Sem reported that a 4 membered faculty managed 3rd Sem but during 4th Sem as Mrs Lalthianglimi is on Maternity leave since April 2024, they are facing manpower shortage. With 4/5 clinical assignments each

week, it is difficult for only 3 faculties for effective supervision. Extra classes were taken on Saturdays and night time for theory classes.

She reported concern regarding Microbiology Guest Lecturer from Civil Hospital side, Ms Nunpuui as they are not satisfied with her classes, examination results and her punctuality. She also reported that other guest lecturers Sir Bika & Ms Caroline are very good, well-oriented with MZU examinations and requirement in nursing. Students enjoy their classes and performed well in examinations. End Semester College Exam is scheduled on 22nd May, 2024(Wednesday).

- 3) Mrs Florence Lalthanzuali, Class co-ordinator of 5th & 6th Sem reported that there are 6 teachers in their class but only 4 are active for clinical supervisions as Mrs Lalduhsaki & Ms Helen Lalthianghlimi Sailo mostly delas with administrative responsibilities at college. The syllabus is covered and currently due for final examination.
- 4) Ms Laldingliani Sailo, Class co-ordinator of 4th year gave report that MZU Exam is due on 5th July 2024. There is plan for class test for every week after internship duty as their performance is not satisfactory. After 15th June, 7th sem will overlap with 4th year class (theory block). However, it was reported that a plan has been chalked out for the same.

 - 1st Sessional: 60, as per INC guidelines (to be converted to 30 with less options)
 - 2nd Sessional: 75, to be set as University Examination.
 - End College Sessional Exam: as per INC guideline.
- For Applied English, Applied Nutrition & Biochemistry, Health/ Nursing informatics & Technology, Applied Microbiology, Pharmacology, Pathology, genetics, Professionalism, professional values & Ethics i/c Bioethics, Introduction to Forensic Nursing & Indian laws:
 - 1st Sessional: 30 as per INC guidelines
 - 2nd Sessional: 75, to be set as University Examination

AOB:

- As the institution is facing financial constraints, the meeting deliberated that for the coming Nutrition Practical, each 2nd Sem students must contribute 100 rupees.
- Concerns regarding lack of communications and miscommunications among faculties as we are all posted in different locations, the meeting proposed some suggestions to improve the situation-
 - Each class co-ordinators may post plans for the coming week in advance on the preceding Friday/ Saturday in faculty whatsapp group.
 - Any problem with students/ incidents/ exemplary incidents be posted or shared with all faculties in whatsapp group.
 - Reminding every faculty to maintain proper decorum in all Faculty rooms especially at Civil Hospital Aizawl.
- Regarding night time Library hours as most of the students do not utilize the facility, the meeting deliberated that night time library hours be suspended till further notice. Few students who need extra room for study may be identified and solutions are referred to the capable hands of vice principal and hostel warden for necessary arrangement.
